MANUAL

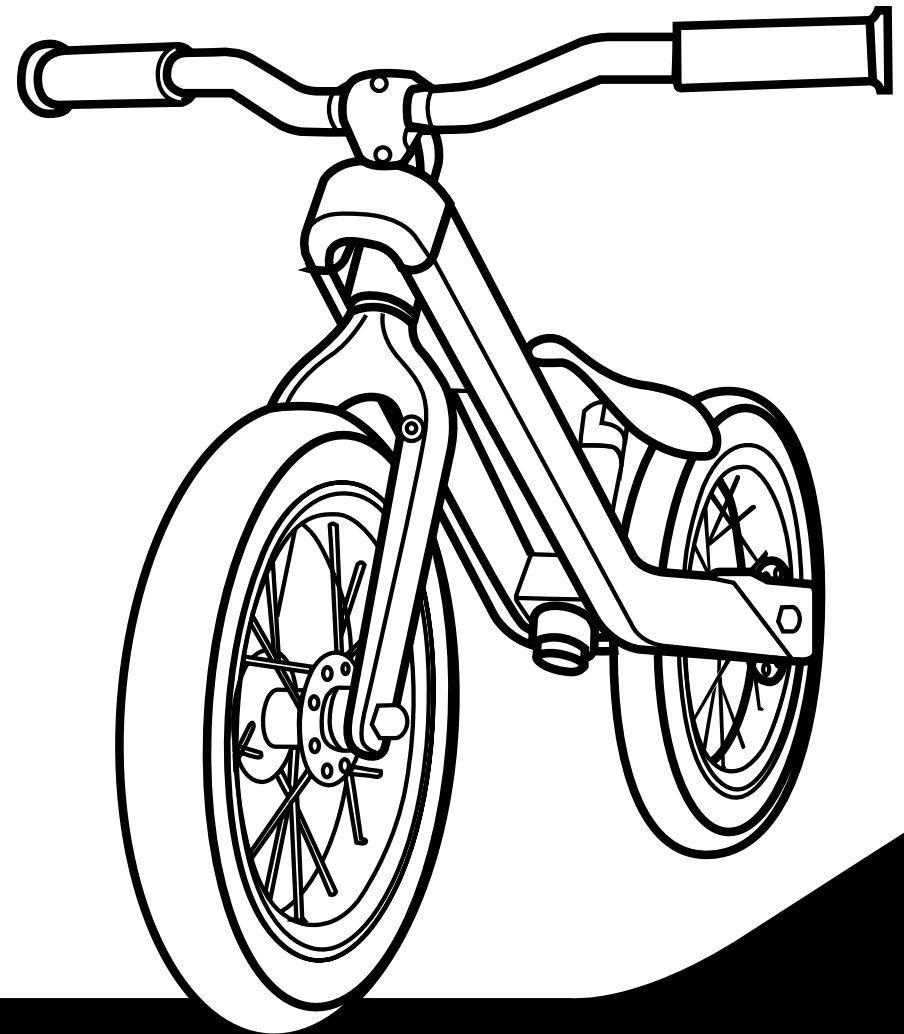

reddot winner 2023

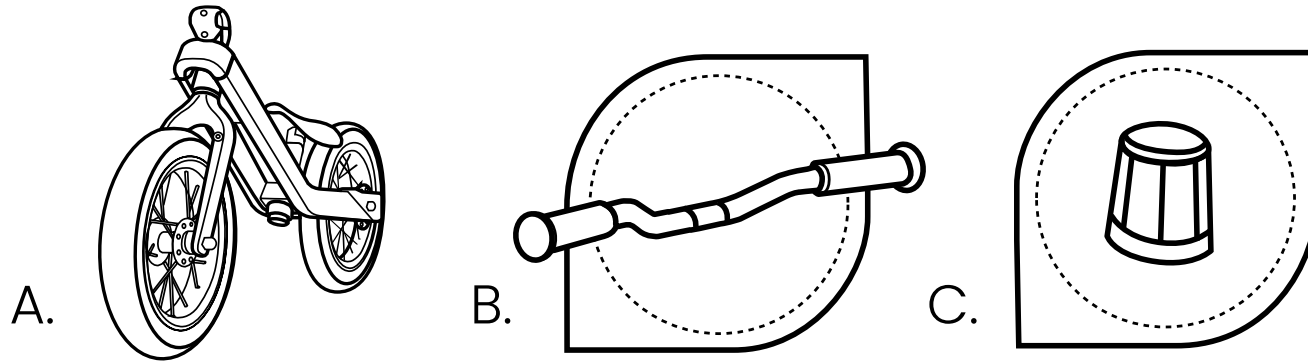

INTRODUCTION

Thank you very much for purchasing a Vici balance bike.

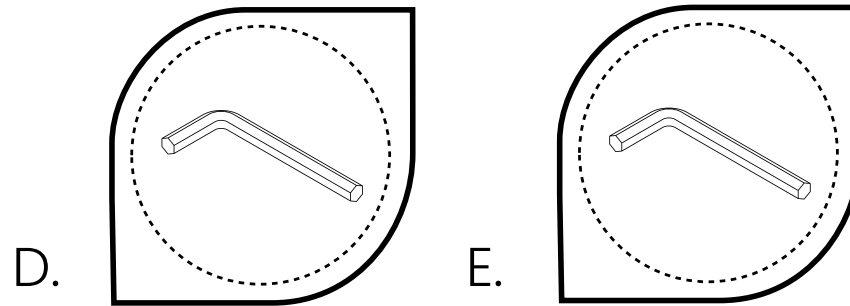

When Vici is properly assembled and maintained by an adult, your child can safely develop balance while building self-confidence, gaining an appreciation for exercise and the outdoors, and experiencing a sense of fun and adventure!

PARTS

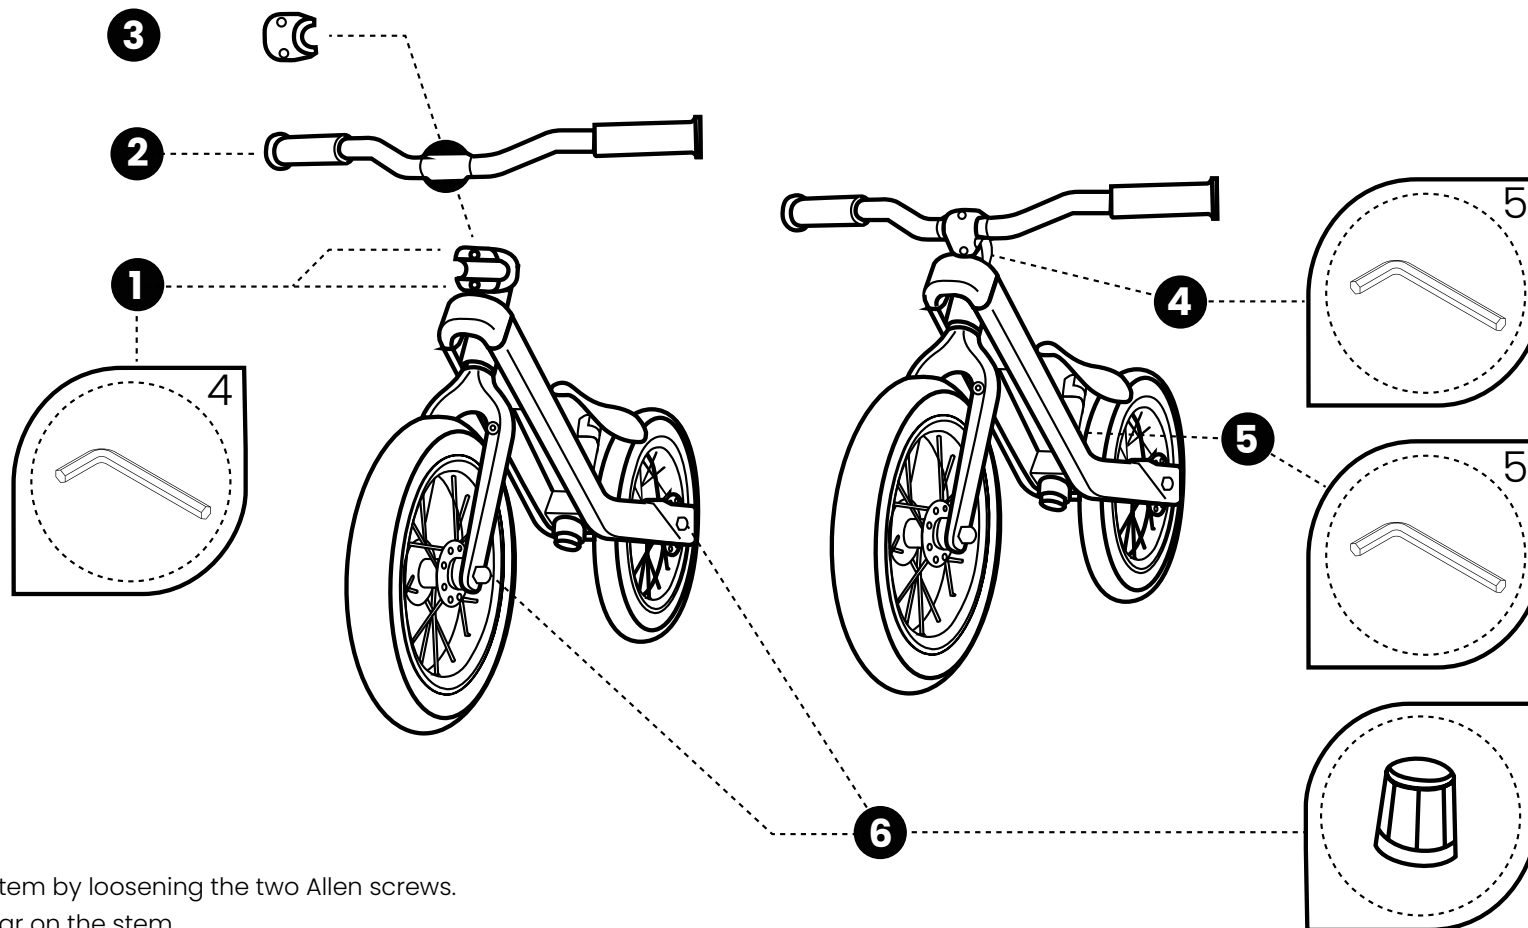

TOOLS

- A. Vici frame
- B. Vici handlebar
- C. Wheel cap
- D. Allen screw 4
- E. Allen screw 5

ASSEMBLY

- Step 1 Disassemble the stem by loosening the two Allen screws.
- Step 2 Place the handlebar on the stem.
- Step 3 Place the mounting part back on the stem. Turn the handlebars to the correct position and tighten the two Allen screws.
- Step 4 Check whether the handlebar is mounted in the middle.
- Step 5 Adjust the saddle to the desired height for the child.
- Step 6 Place the four supplied wheel caps on the ends of the axes.

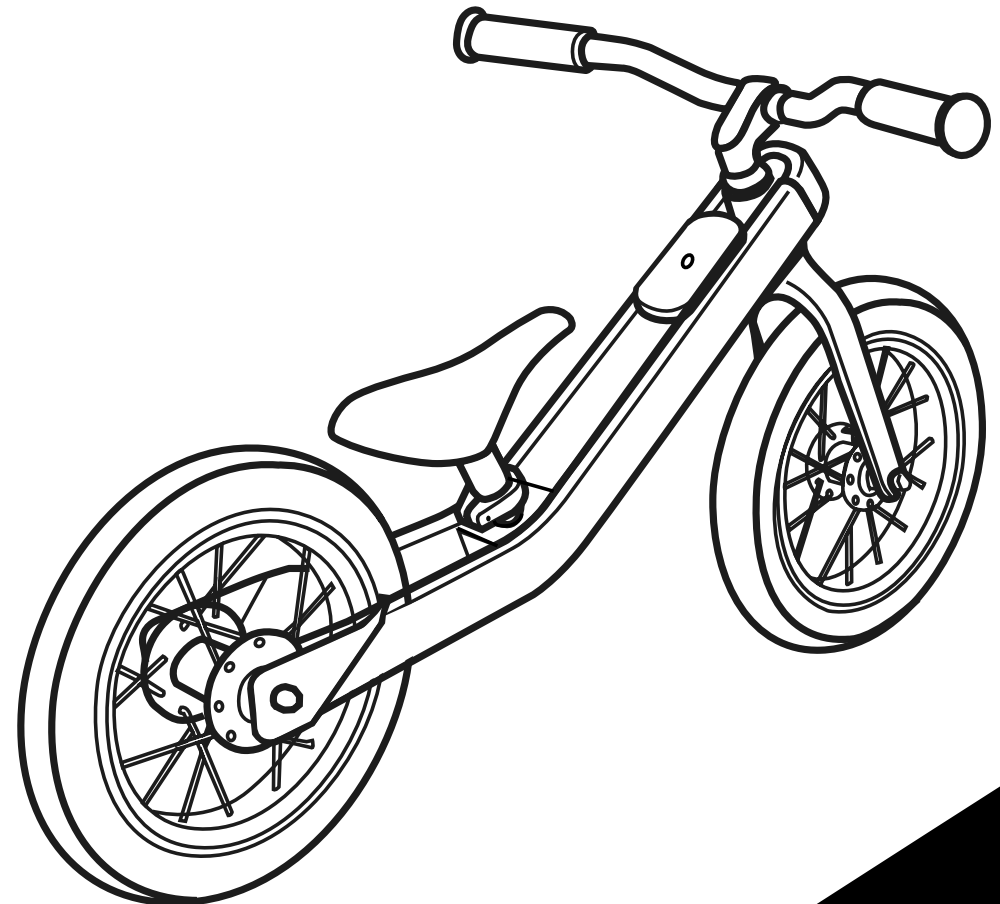

SAFETY

YOUR CHILD SHOULD ALWAYS:

- Wear a helmet, safety vest and suitable footwear while cycling.
- Cycling under the supervision of an adult.
- Cycling in a safe environment, free of traffic and dangerous terrain.
